

Rain Garden Design Charette!

*RainScapes Rain Garden Site Assessment
& Design Training for Landscape Professionals serving
Montgomery County, MD*

March 19, 2010

8:am check in, Charette 8:30 am -1:30 pm

MCPS Lathrop E. Smith Center

5510 Meadowside Lane (off Muncaster Mill Road)

Bring a lunch

Learn more about site hydrology assessment, the DEP RainScapes site assessment criteria, practice site assessment and develop schematic solutions for the site including a rain garden design exercise

The focus of this charette is on site assessment techniques for stormwater management using RainScapes techniques, particularly on the placement and design of rain gardens, conservation landscaping, water harvesting and more!

Enrollment is limited to the first 30 to register!

email:

rainscapes.application@montgomerycountymd.gov

You will receive a confirmation that you are registered after the confirmation email that your request for a reservation was received. If you register after the class is full you will still get a response indicating if you are on the waiting list
