

**Panelist Bios**  
**August 16, 2022**  
**Lessons Learned from Award-Winning Landscape Architecture Projects 2**

**Brendan August, PLA, ENV-SP**  
**VHB**

Mr. August is a member of the Planning and Design group at VHB. He has spent over 8 years working with local DOT agencies to rethink how space is allocated along urban corridors. The redesigned corridors focus on providing safe, context-sensitive and multimodal spaces that enhance the public realm and foster environmental stewardship.

**Oliver Boehm, PLA, ENV-SP, LEED-AP, ASLA**  
**Volkert**

Mr. Boehm leads the Landscape Architecture and Urban Design Studio at Volkert. He has spent over 25 years transforming the public realm from car-centric environments to safe multimodal spaces that promote economic development, cultural benefits, and environmental stewardship.

**Dennis Carmichael, FASLA, LEED AP**  
**carmichael associates**

Dennis Carmichael, FASLA, LEED AP, is a licensed landscape architect with 45 years experience, spending most of his career with EDAW in Alexandria.

His work has served as a catalyst for the revitalization of many American cities, including Centennial Olympic Park in Atlanta, Wharf District Park in Boston, West Main Street in Louisville, and Ross's Landing in Chattanooga. Locally, he designed the landscape for the U.S. Patent and Trademark Office, U.S. Census Bureau, John Carlyle Square, Potomac Yard Park, Sallie Mae, and Dulles Corner. He is currently leading the design of a twenty-acre deck park over the interstate highway in midtown Atlanta.

Dennis has received over forty design awards and his work has been published in such magazines as [Landscape Architecture](#), [Urban Land](#), and [Architecture](#). He has served as national President of the American Society of Landscape Architects and also the Landscape Architecture Foundation.

**Jay Graham, FASLA**  
**Senior Principal, Moody Graham**

Jay founded Graham Landscape Architecture in 1984 and joined Ryan Moody in 2016. His insight and influence are reflected in each client engagement. A University of Virginia alumnus, a registered landscape architect and registered architect, Jay interweaves land and structure, respecting and enhancing the architectural elements, creating a perfect blend between indoors and outdoors.

His 45 years of experience span residential, historic, recreational, and commercial projects. His knowledge, creativity, attention to detail and ability to execute have resulted in recognition and awards for historic residential estates, waterfront and urban gardens, campus projects, public and signature projects.

Jay is actively involved in professional and community programs and has held leadership and advisory

positions with the American Society of Landscape Architects, TKF Foundation, the Neighborhood Design Board, the MD Chapter ASLA Community Assistance Team, Hammond Harwood House, and Historic London Town and Garden.
